Vanquish VQ 50 HT (2016)

Fully customised: As with other VQ Yachts vessels, the VQ50 stands out among all other boats for her acceleration, manoeuvrability and power-packed top speed. Moreover, the engines consume a mere 25 litres / 6.6 US gallons of fuel per hour when cruising at a speed of 12 knots.

Spacious: Highlights include an aft deck with sufficient space for eight people and two dinettes seating up to six. The foredeck features a parasol under which eight people can enjoy shade from the sun. Below deck is a spacious galley, shower and toilet, two refrigerator compartments, a dinette and a cabin with two comfortable berths.

Choose your power: The standard version of the VQ50 is no slowcoach with a top speed in excess of 38 knots. Go for the Veloce version and you'll leave most other boats in your wake as you speed along at 50+ knots.

Detalles
